**PRINTRONIX PRINTERS CHOSEN IN U.S. GOVERNMENT BLANKET PURCHASE
AGREEMENTS FOR ACQUISITION OF RFID PRODUCTS**

WFI Government Services Inc., CDO Technologies and Lowry Computer Products awarded Army Contracting Agency Group 3 contracts that include Printronix RFID EPC-1 printers and supplies

IRVINE, Calif., Sept. 19, 2005 — Printronix Inc. (NASDAQ: PTNX), the leading integrated supply-chain printing solutions manufacturer, today announced that the Government Division of WFI (NASDAQ: WFII), CDO Technologies Inc. and Lowry Computer Products Inc. will supply Printronix's radio frequency identification (RFID) printers and supplies to the Department of Defense (DoD). WFI, CDO Technologies and Lowry were awarded blanket purchase agreements by the Army Contracting Agency (ACA) to supply passive RFID technology. These contract awards expand Printronix's involvement in the DoD's RFID supply-chain initiative.

"Printronix is enthusiastic about the opportunity to work closely with our partners to provide all branches of the DoD with RFID printing solutions," said James B. McWilson, senior vice president of sales for the Americas and EMEA (Europe, Middle East and Africa), Printronix. "Our smart labels and SmartLine family of RFID smart label printers, combined with WFI's, CDO Technology's and Lowry's expert integration, will help the DoD create the seamless supply chain it envisions."

The Group 3 awards include Printronix Certified RFID Smart Labels, which combine the technology of thermal-transfer, pressure-sensitive labels with RFID tags, and SmartLine SL5000r Smart Label RFID printers. Built on Printronix's 5r Multi-Technology Platform, the SL5000r offers users a foundation for protocol upgradeability, such as EPCglobal Generation 2 compatibility via no-cost firmware upgrades.

WFI, CDO Technologies and Lowry are members of Printronix Certified RFID Integrator program. WFI is a global leader in the design, deployment and management of wireless communication networks, technology networks and security systems. CDO Technologies is a provider of RFID-EPC, bar code, wireless and data collection solutions. Lowry is a leading provider of wireless, RFID-EPC, bar code and data collection solutions.
