**LOWRY COMPUTER PRODUCTS ANNOUNCES ITS MEMBERSHIP  
IN THE MICROSOFT CERTIFIED PARTNER PROGRAM**

BRIGHTON, MI – September 3, 2003 - Lowry Computer Products, Inc. today announced it is a new member in the Microsoft Certified Partner Program. Lowry, a leading provider of wireless, bar code, RFID and data collection solutions, has been named as a Microsoft Certified Partner due to its proven competence on the latest Microsoft technologies. Membership in the Microsoft Certified Partner Program will provide Lowry with resources to help develop and deploy robust Microsoft solutions that will help speed customers' time to market and reduce costs.

"Lowry is extremely pleased with our new status as a Microsoft Certified Partner," said Mike Lowry, CEO, Lowry Computer Products. "Being a member of the program gives us early access to product information, so that when our customers are ready to take advantage of the latest Microsoft technology solution we already have the experience we need. In addition, this partner status will allow us to expand the types of solutions and services we can offer our customers."

Microsoft offers a variety of resources to program members, including use of the Microsoft Certified Partner logo for easy customer recognition, training and

technical support. Microsoft provides its Certified Partners with in-depth access to existing and emerging Microsoft technologies and related training and resources, to help ensure that partners have the technical intimacy needed to deliver quality solutions.

Lowry Computer Products, Inc. is a one-stop source for wireless, bar code, RFID and data collection solutions. Recognized for its best-in-class products and technical services, Lowry provides a variety of industries with consulting and installation, hardware, software, automated labeling systems, all types of labels, and 24x7 support and repair services. For more information or to locate one of the company's twelve nationwide offices, contact Lowry at 800-733-0210 or visit [www.lowrycomputer.com](http://www.lowrycomputer.com).
